Prymus6 EN A

Cena	11 575 zł
Dostępność	Na zamówienie
Czas wysyłki	4 tygodnie
Producent	Sol Paragliders

Opis produktu

As you embark on paragliding, you soon realise that every moment in the air is an unprecedented experience. The sensation of lifting off the ground is beyond words - captivating, fascinating, inspiring.

What it takes is an equipment you rely on, that ensures safety, easy handling and performance, as well as a flight school, your closest ally when trust, dedication and consistency are required!

The PRYMUS 6 is LTF/EN A certified, featuring a new design with aerodynamic improvements throughout the entire equipment, especially on the stabilos. Since 2001, the Prymus has been the ideal choice for flight schools, the pilot-to-be, as also regular pilots looking for a smooth flying on short or long distances.

Flight Characteristics

The PRYMUS 6 lives up to this history. Serving as an ideal entry-wing, a companion for maximum safety you can depend on out-and-out, forgiving of rookie commands and inexperienced manoeuvrers, understanding that beginners often face challenges during their first flights. This is why instructors choose the PRYMUS 6, too.

Innovative design technologies were in-built in order to develop each ones skills in a safe, comfortable and progressive way, providing an exceptional flying experience.

Technologie

Technology

The Prymus 5 combines our technologies for performance, safety and long life.

Pressure Booster
Profiles
- Shark nose

3 Riser-system

X-Battens
Hybrid Materials

Laser Cut
Load Distribution
Tapes

3D - Shaping
Flexible Battens
Bow Tec

Mini Ribs
Higher projected A/R

Warunki Gwarancji

Warunki gwarancji

Każda wyprodukowana paralotnia posiada **gwarancję na 3 lata lub 300 godzin lotu**, w zależności od tego, co nastąpi wcześniej. Nasza technologia badawcza w połączeniu z wykorzystaniem wysokiej jakości materiałów i przyjęciem nowych metod produkcji pozwala nam zaoferować Państwu, naszemu klientowi, tę wielką zaletę. Gwarancja ta obejmuje bezpłatną naprawę lub wymianę materiału na nowy, będący w idealnym stanie. Kryteria zależą od producenta.
