AN IDEAL CHOICE FOR BEGINNER TRIKE PILOTS

Fly to new adventures with **the CUB**, our new paramotor wing for **beginners with trike** !

Specially designed for beginner pilots with trike, in the weight range between 150kg and 250kg, this revolutionary wing promises **a serene start and rapid progression**.

Intuitive learning and rapid progress, in all safety ..

The intuitive design of the wing makes it easy to inflate and fly from the very first moment. **Enjoy a stable and comfortable flight**, even in light wind conditions, for a confident learning experience.

Its durable and resistant materials guarantee exceptional durability and safe practice.

Discover the pleasure of flying with a wing responsive and light at the command and progress at your own pace to **quickly acquire the essential flying techniques**. This wing accompanies you perfectly from the beginner stage to a more advanced level of piloting.

Produkt posiada dodatkowe opcje:
